## REPORT OF THE BOARD OF EDUCATION FOR THE BETHLEHEM GRADED SCHOOLS.

Commendable progress has been made during the year in all the schools ; a state of general good health has prevailed, and excellent discipline has been maintained. The Board of Education was fortunate in securing a good corps of teachers without exception, the present year, to take the place of those we reluctantly let go. These have shown natural ability, and a purpose to do their best. The Primary teacher is the same as last year, and her work shows the wisdom of retaining good teachers when we have them and can do so. It is a matter of regret that, by reason of small salaries paid, we are unable, as a rule, to retain efficient teachers ; but must annually make new engagements, and run the risk of failures. Some needed repairs and improvements have been made. Water from the public service has been introduced for the benefit of the schools. Other improvements should be attended to especially in the sanitary condition of the entire school building. First, there is no means of ventilation, except by the opening of windows or doors. Second, in making a woodshed of the girls' side of the basement no opportunity is afforded them for exercise in cold weather, except in the narrow halls and cloak rooms, or out of doors. Third, the condition of what have answered for water-closets, is not healthful, and should be remedied. The necessity is becoming more and more apparent of an Intermediate department. By reason of extra tuition scholars from without the district, the Grammar room has become so crowded that at the opening of the present term, it was found necessary to make some change. To relieve that room of its crowded condition, the Board of Education temporarily placed the A-class in the High school room. They pursue the same course, however, as heretofore in their recitations. A very pleasing feature of the closing exercises of the fall term, was the presentation to each of the pupils throughout the schools, eighty-five in number, of a brand new two dollar bill. This generous Christmas gift was made by Mr. John Campbell Harris of Philadelphia, one of our summer guests. In his letter to Mr. F. L. White, member of the Board of Education, a suggestion was made that the school grounds be graded and beautified with flowers, which is worth heeding. By a unanimous vote of the Board, vocal music, with the Tufts & Holt Normal Music Chart, is to be a feature of instruction in our schools, and Miss Josie Kidder has been engaged as teacher.
